Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statement and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this information; we are required to report the fact. We have nothing to report in this regard except appointment of Company Secretary in the company was not done till the date of signing our audit report as required under

section 203 of the Company Act, 2013 and also we are relying on the data provided regarding shareholder's holding shares more than five percent.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Emphasis of Matters

We draw attention to the following matters in the Notes to the financial Statements:

(a) Note 4, which describes the Loans & Advances given to associate concern.

Our opinion is not modified in respect of these matters.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements: -

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we give in the **Annexure A**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

NOTE: '17' SIGNIFICANT ACCOUNTING POLICIES & NOTES ON ACCOUNTS

1. **Corporate Information**

- MS Securities Limited (Now Known as Swadha Nature Limited) (the Company) is a listed entity incorporated on 12th of February 1992.
- The Company's registered office is at 601B, Ashiana Plaza, Budh Marg, Patna-800001.

2. **Basis of preparation, Measurement and Significant**

2.1 **Basis of Preparation and Measurement**

a) Basis of Preparation

The financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016 and other relevant provisions of the Act.

Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time taken between acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained its operating cycle as twelve months for the purpose of the classification of assets and liabilities into current and non-current.

b) Basis of Measurement

These financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities (including derivative instruments) measured at fair value (refer accounting policy regarding financial instruments),
- Defined benefit plans – plan assets and share-based payments measured at fair value.
- Assets held for sale – measured at lower of carrying value or fair value less cost to sell.

2.2 **Key estimates and assumptions**

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The areas involving critical estimates or judgments are:

- i. Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized; (Note 2.4 (a))
- ii. Recognition and measurement of provisions and contingencies, key assumptions about the likelihood and magnitude of an outflow of resources; (Note 2.4 (g))
- iii. Rebates and sales incentives accruals
- iv. Fair value of financial instruments (Note 2.3)

2.3 **Measurement of fair values**

The Company's accounting policies and disclosures require financial instruments to be measured at fair values.

The Company has an established control framework with respect to the measurement of fair values. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Significant Accounting Policies

a) Property, Plant and Equipment

Recognition and measurement

Items of property, plant and equipment, other than Freehold Land, are measured at cost less accumulated depreciation and any accumulated impairment losses. Freehold land is carried at cost and is not depreciated.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the asset to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on derecognition of an item of property, plant and equipment is included in profit or loss when the item is derecognized.

Subsequent expenditure

Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate only if it is probable that the future economic benefits associated with the item will flow to the Company and that the cost of the item can be reliably measured. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repair and maintenance are charged to profit and loss during the reporting period in which they are incurred.

Depreciation

Depreciation on Property Plant and Equipment is provided on Written down Method (WDV) using the rates arrived at based on the useful lives of the respective assets prescribed in Schedule II to the Companies Act, 2013. Depreciation on amounts of additions to fixed assets during the year or on its

disposal/ demolition/ destruction of property plant and equipment during the year is provided on pro-rata basis as per Schedule II. As per Note 7 to the Schedule II to the Companies Act, 2013, the carrying amount of the fixed assets as on 1st April, 2015 has been depreciated over the remaining useful life of the asset after retaining the residual value. Wherever the remaining useful life of the asset is NIL as per Schedule II, the carrying amount as on 1st April, 2015 is recognized in the opening balance of retained earnings. Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

b) Borrowing Costs

Interest and other borrowing costs attributable to qualifying assets are capitalized. Other interest and borrowing costs are charged to revenue.

c) Impairment of non-financial assets

An impairment loss is recognized whenever the carrying value of an asset or a cash-generating unit exceeds its recoverable amount. Recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs of disposal and its value in use. An impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which the impairment takes place. The impairment loss is allocated first to reduce the carrying amount of any goodwill (if any) allocated to the cash generating unit and then to the other assets of the unit, pro rata based on the carrying amount of each asset in the unit.

d) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, futures and currency options.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost,
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI) except unquoted shares.

on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Equity investments

All equity investments within the scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the Other Comprehensive Income (OCI). There

is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or a part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- The contractual rights to receive cash flows from the financial asset have expired, or The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset. When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company assess on a forward looking basis the Expected Credit Losses (ECL) associated with its financial assets that are debt instruments and are carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Company applies a simplified approach. It recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security deposit collected etc. and expectations about future cash flows.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Loans and borrowing

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require specified payments to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognized less cumulative amortization.

Where guarantees in relation to loans or other payables of subsidiaries are provided for no compensation, the fair values are accounted for as contributions and recognized as fees receivable under “other financial assets” or as a part of the cost of the investment, depending on the contractual terms.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

e) Inventories

Inventories are valued at lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Raw materials, packing materials and stores: Costs includes cost of purchase and other costs incurred in bringing each product to its present location and condition.

Finished goods and work in progress: In the case of manufactured inventories and work in progress, cost includes all costs of purchases, an appropriate share of production overheads based on normal operating capacity and other costs incurred in bringing each product to its present location and condition

If payment for inventory is deferred beyond normal credit terms, then the cost is determined by discounting the future cash flows at an interest rate determined with reference to market rates. The difference between the total cost and the deemed cost is recognized as interest expense over the period of financing under the effective interest method.

f) Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet includes cash at bank and on hand, deposits held at call with financial institutions, other short term highly liquid investments, with original maturities less than three months which are readily convertible into cash and which are subject to insignificant risk of changes in value.

g) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognized as finance cost.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent Assets are not recognized till the realization of the income is virtually certain. However, the same are disclosed in the financial statements where an inflow of economic benefit is probable.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized such reductions are reversed when it becomes probable that sufficient taxable profits will be available.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be recovered.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.
